Good Evening Deer Lake Association Members,

Sending a quick note to inform you that the lake was stocked yesterday with trout. The Association received a last minute donation from a generous member and we were able to purchase \$2,700 worth of fish which equates to 350lbs.

**REMEMBER - FISHING AT DEER LAKE STARTS
THIS SATURDAY, MAY 27TH!!**

Below are a few pictures from the fish stocking event for your enjoyment:

In addition, for those that were present at the March 2023 Association Meeting or read the meeting minutes, are aware that a Committee was formed to investigate options to install a "cow proof" fence around the lake. The Committee has been busy researching and coming up with options. In the next few weeks Association Members will see a demonstration model installed around the upper lake for your viewing. If you happen to be up there and see this model, stop and take a look at it. We ask that you take a moment to write your opinions/comments in an email to the President, Glen Flanders, at glenflanders934@gmail.com for the Committee's consideration.

Lastly, at the March 2023 Meeting, the option of using barley bales was discussed to control algae. The Board has decided to do a trial run in the upper lake, since there is so much water, to see if the barley bales seem to have a positive effect on the algae growth. If you are up and around the upper lake and see these bales please do not disturb them, they are there for a reason.

One more item. The pump has been fixed and installed by Mr. Dave Robertson. Thank you Mr. Robertson! We request that Members avoid opening the pump house or take it upon themselves to "fix" the pump. If you see that the aerators are not working properly, please notify the Board and we will look into it. We appreciate everyone's eyes up there, as we all get up to Deer Lake at different times of the year.

In closing, the Board wishes all of our Association Members and their families a safe and happy Memorial Day weekend!

Thank You,
Krystal Rodriguez
DLA Secretary
