

DLA - U.S. Forest Prescribed Burn Update as of Dec 17

Deer Lake Board <krys.rodriguez13@gmail.com>

Sun 12/17/2023 9:00 PM

To:glynt@hotmail.com <glynt@hotmail.com>

Good Evening Deer Lake Association Members,

The purpose of my email is to provide a few updates regarding the U.S. Forest Service's prescribed burn in and around Deer Lake. The Board received a couple emails last week and the details provided within these emails are summarized below for your information:

- Last Monday, the Forest Service was able to to begin pile burning. They complete the areas around the campgrounds.
- Last Wednesday, the Forest Service was able to complete most of the pile burning in Wetherill, Palomas, and along the Robinson private property boundary on FR-103.
- The piles in and around Deer Lake are planned to be burned this week (Dec 18-22). If conditions change preventing this from happening they will provide notification.
- Crews are working on long-term monitoring going forward.

Mr. Petracca, of the U.S. Forest Service Cuba Ranger District Office has also been providing updates and details on the Deer Lake Estates Facebook back so I urge you to check this page periodically for updates.

Thank You,
Krystal Rodriguez
DLA Secretary
